When You Think of Fine Perennials — Thanks, For Thinking of . . .

The Joseph F. Martin Co., Inc.

**America's Leading, Exclusively Wholesale Source For Fine Perennials.
Where Good Plants and Good Friends Get Together—**

Dear Friends:

Once again we are pleased to have the opportunity to express our sincere appreciation for the fine relationship developed with you throughout the years. It is through your cooperation and continued faith that we are able to increase our listings, maintain fair prices and produce quality stock.

Our season this year has been an excellent one. We have had the blessing of sunny weather and plenty of rain, consequently the plant material has attained the ultimate in one year development. All the perennials are at that perfect exhibition stage that is so important for sight sales. If immediate resale is not the prime requisite, you will find that these plants have liberal quantities of propagating stock. This is particularly true of merchandise shipped in the fall when the cuttings are left intact on such items where they are desirable.

In accordance with federal quarantine regulations, we have treated our entire plantings with DDT and are a completely certified nursery. We have seen the benefits of this treatment not only in the control of the Japanese Beetle, but also in the elimination of any undesirable elements that could hinder the growth of the perennials. It is also your best insurance against the transmission of insect borne diseases to you or to your customers, regardless of the locale of your establishment.

May we ask that you consider carefully the advantages of the fall planting season. All things considered, your risk is minimized, time is saved, and you are truly ready for the spring rush.

Thanks again to you, our regular customer, and to you our new customer. We look forward to the opportunity to serve you this season and for many more pleasant seasons to come.

Sincerely,

THE JOSEPH F. MARTIN CO., INC.

ACHILLEA — Millfoil or Yarrow

Rock and Border Perennials valuable for cutting. They grow in any conditions, rich or poor, sun or shade, damp or dry. The abundance of sucker growth will have them completely filling an area in the second season, making it unnecessary to cultivate them.

ANGEL'S BREATH. It grows as an inverted bowl, twenty inches high and spreads two feet. In flower, it is so profusely covered that the rich green foliage, decorative otherwise, can scarcely be seen. The white is the purest, and the composition of the flower is fully double without a trace of center. It is brand new and has our highest recommendations 2.50 20.00

SNOWBALL. Larger and whiter blooms than "The Pearl!"; very fine for florists' filler. 15-18 inch. 1.75 12.50

TOMENTOSA AUREA. Charming yellow, blooming in June. Nice in the rocky or in the border. 2.00 15.00

ADENOPHORA

POTANINI. Three feet, bushy, leaves deep green, coarsely toothed, flowers light blue, broad bell shape and hung in racemes. 2.25 18.00

ACTINOMERIS

ALTERNIFOLIUS. Tall and showy long-blooming perennials of late summer. Great corymbs of honey yellow flowers. Excellent for maintaining color and height in the border. 2.25 18.00

AJUGA — Bugle

For edging or carpeting in sun or shade. Beautiful anywhere, particularly useful as a solution to a difficult planting problem. Plant them at the base of trees, to edge a drive, to come up from the edge of a pool, almost anywhere. Their leaves are a striking shiny green. They grow so strongly that, once established, they dominate weeds.

GENEVENISIS. An excellent plant for edging and carpeting. Grows from 6 to 8 inches high with spikes of blue flowers in May and June. . . . 2.00 15.00

REPTANS BLUE. Grows 3 to 4 inches high, with deep purplish blue flowers. Bronzy foliage. 2.00 15.00

REPTANS ALBA. A tightly knit compact creeping cover, flowers rise 3 to 4 inches over deep bronze foliage. 2.00 15.00

REPTANS VARIEGATED. Rosettes of pale apple green and clear primrose yellow in perfect variegation, compact creeping habit, flowers sky blue 3 to 4 inches, prolific. 2.25 18.00

ALYSSUM — Basket of Gold

SAXATILE COMPACTUM FL. PL. Silver-grey foliage, blends well with the golden yellow flowers on this very compact border plant. Excellent for forcing after dormancy. Quantity limited. Order early.	3.50	30.00
SAXATILE COMPACTUM GOLD DUST. An improved form. Robust and brightly flowered, it is a fine dwarf, compact Basket of Gold. Flowers April and May.	2.00	15.00

ALLIUM — Popular Herb

SCHOENOPRASUM (Chives). Grows to a height of 12 inches, producing umbels of lavender flowers in summer. Does best in sandy soil and sun.	2.00	15.00
---	------	-------

ANCHUSA — Sea Bugloss, Alkanet

ITALICA DROPMORE. Pretty gentian blue flowers in spring.	2.00	15.00
MYOSOTIDIFLORA. Dainty blue flowers and branchy sprays during April and May. Fine for shade and sun.	2.25	18.00

ANEMONE — Windflower

PULSATILLA. 9 to 12 inches — its deep violet flowers are first out in the spring.	2.25	18.00
--	------	-------

ANTHEMIS

KELWAYI. Handsome finely cut foliage, and daisy-like yellow flowers produced all summer. Does well in the poorest of soils and is excellent for cut flowers.	2.00	15.00
---	------	-------

AQUILEGIA — Columbine

CRIMSON STAR. (True originator's strain). Large, crimson sepals and spurs, white petals. Entirely different.	2.25	18.00
DOBBIES. The most robust hybrid definition. Large leaved, large and prolifically flowered in all the bright hues.	2.00	15.00
MRS. SCOTT ELLIOTT HYBRIDS. Wonderful colors and color combinations with very long spurred flowers. Colors range through shades of lavenders, mauves, blues, purples, whites, creams, yellow to bronze red and blue shades.	2.00	15.00
MRS. NICHOLS. Large flowered clear, deep blue with white trumpet.	2.00	15.00

ARABIS

ALPINA FL. PL. Double White Rock Cress. Flowers April to June. A very fine rock plant and the sprays of flowers can find and number of uses in the florist shop.	2.25	18.00
---	------	-------

ARMERIA — Sea Pink or Thrift

CEPHALOTES RUBRA. Good sized flowers of striking red; grows dwarfier than Bee's Ruby and Glory of Holland.	2.00	15.00
LAUCHEANA. Bright rosy red. Height 3 to 6 inches. May-June	2.00	15.00
MARITIMA SPLENDENS. (Statice America). Rosy magenta flowers on one foot stems.	2.00	15.00

ARTEMESIA

SILVER KING. Bright silver-coated stems and foliage are of great value for florists' fillers, can also be dried for winter use.	2.00	15.00
SILVER MOUND. Compact, mound-like plant with bright silvery-grey fern-like foliage. Excellent for edging, the rock garden, and in wide use as a foliage pot plant.	2.50	20.00
SILVER QUEEN. Like Silver King, but sturdier in growth, producing stronger and longer stems. Larger, bushier plant.	2.00	15.00

ASCLEPIAS

TUBEROSA. A showy native plant about 2½ feet high. Produces brilliant orange-scarlet flowers during July and August. Nice for cutting.	1.75	12.00

HARDY ASTERS

The outstanding selection of asters offered below are all field grown and wonderfully developed for satisfactory transplanting in the Fall as they so prefer it.

	Per 10	Per 100
ABENDROTHER. Beautiful deep rose, 5 ft.	2.00	15.00
GOLIATH (Alpine). Large bluish purple. Dwarf to 8 inches.	2.25	18.00
ANTWERP PEARL. Exceedingly free flowering with large, wide open, satiny-pink flowers with yellow center, about 4½ ft. high.	2.00	15.00
BLUE PLUME. Stately grower, rich deep purple nearly double flowers on spikes of splendid form.	2.00	15.00
CLIMAX. One of the best and showiest, with large pyramidal spikes of large light lavender blue flowers.	2.00	15.00
DAZZLER. Brilliant rosy-red, symmetric, 3 ft. grower	2.25	18.00
HARRINGTON'S PINK ADORABLE. This variety was introduced a little after the well-known Harrington's Pink. Habit and growth are similar, but the color is a slightly deeper pink. Height 4½ feet. Flowers in September and October. Very worthwhile.	2.25	18.00
LILACTIME. Lovely soft lilac. 12 inches.	2.00	15.00
MT. EVEREST. Best white aster. Forms well shaped pointed pyramids of florets on stately stem.	2.25	18.00
PACIFIC AMARANTHE. A new beauty. Grow about 12 inches, flowers early August until October with an unending freshness. Deep, never fading, red purple flowers are in profusion on sturdy stems. Height and symmetry make it perfect for the front of the border, or sale out of pots or out of beds.	2.50	20.00
PEACE. Pinkish lavender color with semi-double flowers almost a full 2 inches across. A profuse bloomer and is perfect for cut flowers as well as for garden usage.	2.50	20.00
PINK PARTY. The best of the pinks. Florets form a prolific pyramidal head borne on stately stems.	2.00	15.00
PLENTY. A fine new introduction. Flowers half-dollar size, and the clean, pure powder blue of Frikarti. Plants grow to 2½ feet, extremely productive.	2.50	20.00
PROSPERITY. Large, deep rosy pink flowers in great wavy masses on plants about 3½ to 4 feet high. It commences to bloom in early September and lasts well into October. This is one of the finest pink Novibelgi types and replaces all pinks in this group.	2.50	20.00
RONALD. Rosy pink to lilac. 12 inches	2.00	15.00
STAR OF WARTBURG. Flowers are large lilac-blue with striking orange center on 12 to 14 inch stems. Field grown plants for late fall delivery.	2.25	18.00
THE CARDINAL. New. Another amazingly high colored bright red—one that wouldn't have been thought possible a few years ago. Flowers are semi-double, broad, flat, and appear in such profusion that the healthy foliage is literally hidden in season.	3.00	25.00
VIOLETTA. Deep violet purple, unusually double, blooms early on sturdy thickly foliaged, symmetrically formed plants.	2.25	18.00
WHITE LADY. One of the finest pure white.	2.25	18.00

ASTILBE

BONN. As bright as it is possible to imagine a soft pink. Compact and a very vigorous grower, it is a delightful garden item, a prolific cut flower producer. Resale is prompt out of beds and pots.	4.00	35.00
COLOGNE. A deep crimson pink, compact and vigorous, it won't be too tall for an edging, yet may be used as the focal point of the border. Generous cut flower producer, re-sells out of beds and pots.	4.00	35.00
PEACH BLOSSOM. The old favorite forcer. Pure peach, stems long and tall in profusion. Bright foliage	4.00	35.00

BAPTISIA — False Indigo

AUSTRALIS. A strong growing plant about 3 feet high, suitable for the border or wild garden with dark green deeply cut foliage and spikes of dark blue, lupine-like flowers; good for cutting.	2.00	15.00
--	------	-------

CHEIRANTHUS — Siberian Wallflower

ALLIONI. A beautiful rock plant. Fiery orange flowers on stems about a foot high 2.00 15.00

CHRYSANTHEMUM MAXIMUM — Shasta Daisy

ALASKA. Large white, blooms all summer 2.00 15.00

BORDER QUEEN. New for '53. Large double Marconi type flowers bloom prolifically on 12 inch stems to make this new addition to the line one of the most flexible now grown. The plant itself is robust and extremely hardy, able to withstand wet or dry conditions and still produce abundantly. 3.50 30.00

CONQUEROR. A very strong grower, the best tall, later flowering variety, attaining a height of 3 feet. Extra large pure white flowers are produced on 30 inch stems. We highly recommend this variety for planting together with taller growing perennials 2.00 15.00

ESTHER READE. Well recognized and universally used, pure white crested, fully double shasta daisy 2.50 20.00

FOOLPROOF. Large, airy, and graceful, a single in form with a tendency to overlay another small row of petals for a very crisp effect. It is a July, August Daisy. 2.50 20.00

GIANT DOUBLE WHITE. Reselected seed from Deiner's Giant Hybrids has given us this variety best described by its name. 30 in stems, excellent for cutting. 3.00 25.00

MAJESTIC. Immense 5 to 6 inch flowers, smallest button center. Double row of overlapping petals makes flower full, compact, and firm. 28 to 30 inch sturdy stems prolifically produced. Very hardy; medium early. 3.00 25.00

MT. SHASTA. A cut flower leader, available in quantity for sale as field grown clumps for the first time. Fully double high crested flowers borne on stately stems. 2.50 20.00

PRIDE OF DIXIE. A lacey, powder puff effect, produced by double 3 inch blooms on stems 2 to 3 feet tall. Semi-hardy, but its unique beauty merits the slight extra protection. Excellent for the South. 3.50 30.00

WIRRAL PRIDE. An English introduction of compact growth. Glistening white petals with contrasting high yellow centers. 3.50 30.00

SUPREME. One of the best cut flower daisies. Large crisp single flowers borne on a sturdy stem. Good keeper. 2.50 20.00

The field grown plants are much nicer than normal expectations would permit. Mother Nature obliged with a wonderful season; the "mums" obliged by responding beautifully. All units are in prime condition, true to name, stunt free, and disease free.

ALL PLANTS FULLY DEVELOPED FIELD GROWN.

INTRODUCING

SUNNY HONEY (Martin)

A sparkling new complement ready and worthwhile to take a prominent place in the brightest family under the sun. The flowers are superbly formed, tightly knit, incurved type, deep true yellow. The plant itself is very unique due to the fact that it develops large 3 inch blooms on a low 15 inch plant. An excellent bedding, border or foundation plant that blends well with the current architectural trends. Blooms the 15th of August.

CHARLES NYE. A superlative pure yellow pompon; tall and spire-like, blooms freely in compact clusters borne on sturdy stems.	2.50	20.00
CHIPPEWA. A large double bright aster purple, an early one, Sept. 5th, which grows 24 inches high. Tends to fade in the hot sun, but in cool weather the color is beautiful.	2.50	20.00
CHIQUITA. A lovely dome-shaped pompon, flowers of a deep lemon-yellow shade. Very desirable both for the garden and bouquets.	2.00	15.00

Wintering Chrysanthemums purchased in the fall is not a problem if you heed this:

Temperature is not the damaging factor — WATER IS. This list of Chrysanthemums is hardy in all zones of the U. S. Whether you heel into beds or plant into rows, just make sure that you will have no surplus **water** on your plants either in the winter or in the early spring. In the beds, be sure that the heeling soil is raised four or five inches above the contour of the area. In the field rows, raise a hill five inches above the aisle space **first**, then plant. That's all there is to it!

ROSEMARY. Amaranth rose to pastel mauve. Attractive upright plant that grows beautifully to 36 inches. 4 in. bloom. Early	2.50	20.00
ROSE SPOON. This is the pure rose that is, with yellow, the most positive pure color that exists in the many spoon varieties. Grows in healthy habit to 30 in. tall, bears multitudinous loads of 4 in. flowers and comes in early and bright	2.50	20.00
YELLOW SPOON. The oldest and yet the class leader of this striking family. It is a pure color, no distracting shadings. Early	2.50	20.00

In the middle of this catalog we have inserted a handy order aid. It lists all of the Chrysanthemums as they occur in these pages. Just fill it in and your Chrysanthemum order is quickly and easily completed.

This book belongs to you. Consider the writing as your own. If there is anything in it that you would like to use, just go right ahead. No rights are reserved. If we can ever add anything that is helpful, please call on us.

Field grown mums used as stock for planting are far and away the most economical way to acquire the liberal quantities that create the display that sells. Your plants will be loaded with stolons. Consider each stolon a plant in the field next year. You can't buy your Chrysanthemums in any way, pots or rooted cuttings, and come close to the low cost of your own divisions from these field grown plants.
